- Be sure to revisit the 5, 6 or 7 Cog Model you're working with throughout your 1 Cog at a time roll-out so that pupils can see how the individual cogs fit in with the bigger model picture. One way to do this is to have a Cog Model poster on display in your Classroom for ongoing reference during Cog lessons.
- You can also return to the Cog Model Introductory Teaching page (in the Bronze section of the Primary Launchpad) for extra consolidation and extension activities for Cog Model lessons.
- For Silver accreditation, you should have evidence in your Classroom of Cog teaching taking place around the level of model you're working with (**Lower Primary 5 COG, Middle 6 COG, Upper 7 COG**)

When all teachers and classes have reached this point in your Emotion Works roll out, you have covered all of the training and teaching content required to apply for a **SILVER PRIMARY SCHOOL AWARD**. Primary Team Leads can sign up and apply online here www.emotionworks.org.uk/members-dashboard/primary-school-award-overview/
